

MARIA NEVAREZ | SOFTWARE ENGINEER

San Francisco Bay Area

+1 650 861 1877 | mvno.071095@hotmail.com | [linkedin.com/in/valeria-nevarez](https://www.linkedin.com/in/valeria-nevarez)

Education

Monterrey Institute of Technology (ITESM) | Aug. 2014 – Dec. 2019

- **B.S. in Biotechnology Engineering with minor in Business** - GPA (4.0) 97/100
Relevant Coursework: Molecular Biology, Microbiology, Biostatistics.

Software Engineering Courses, 2024 - 2026

More than 15 online courses in the areas of Web Development, Python, Data Science, Github, and Cloud Computing. See certificates section in my portfolio.

Professional Experience

Laboratory Technician and Research Assistant, Micro Meat | May 2022 - Aug. 2023

- Management of laboratory inventory and supplies.
- Support in research and development by setting up mammalian cell culture experiments.
- Developed automated Python pipelines using Pandas and NumPy to process high-throughput screening data.
- Maintenance of cell lines under aseptic conditions in a biosafety cabinet.
- Preparation of cell culture media, autoclaving of laboratory material.

Quality Control Microbiologist, Grupo Versa | Sept. 2019 - Dec. 2020

- Supervision of compliance with good manufacturing practices during production processes.
- Inspection of work areas, product on process, and finished product.
- Built custom scripts to perform statistical significance testing (t-tests, ANOVA) on multi-variant biological datasets.
- Creation of requirement compliance reports for raw material and finished product.
- Microbiological analysis of cell purity and viability by cell plating through serial dilutions.

Languages

- Spanish (native)
- English
 - TOEFL ITP 620
 - TOEFL iBT 102/120

Research

Summer Research Internship, Massachusetts Institute of Technology | June 2018

- Micro and nanofabrication techniques to produce solar cells, sensors, electronic circuits, microfluidics systems, and microelectromechanical systems.

Skills

- **Languages & Frameworks:** React, Next.js, Node.js, Python, Java/Kotlin (Spring Boot), Tailwind CSS, HTML, CSS
- **Tools:** GitHub, Jira, Datadog, AWS (familiar), Vercel, CI/CD pipelines, WireMock
- **Soft Skills:** Team collaboration, English fluency, documentation, agile workflows, quality assurance mindset.
